Another ♥♥♥♥♥♥♥♥ game that doesn't let you save your controls, the game is therefore totally unplayable.. wtf is this for game name Xdd. I played first 6 missions died in the 7th and the game goes black, Tried to restart the game and once you press play the game goes black

\*Tried to try the game again no black screen but I lost all my progress. Well this was a hoot,but of course,you play for the achievements. Achievements.

Easy 100% / 1h, just idle.. ELEVEN-\*\*\*\*ING-HUNDRED STEAM ACHIEVEMENTS. Well this was a hoot,but of course,you play for the achievements. very nice 100%. It may be a game but it's actual purpose is a +1 for collectors, either by idling the achievement spam it offers or as a cheap game for their game count.

All in all most of these games are supper plain and boring or the developers never even bothered to finish them, since their purpose is not to be played.

---

pretty good game. i love it!👍👍👍👍👍

♡ 👍👍👍👍 ♡. I love dis game. A furby that mutated and eats apples and collects stars to survive.
